**Evidence For Noah's Flood**

**Evidence for Noah's flood** is everywhere on every continent.

1. Millions of dead things buried in rock layers carried by water all over the earth.
2. Pol-strata trees found in rock, layers all over the world. The sedimentary layers said to be millions of years old often have trees, some of them upside down, in layers that supposedly took millions of years to form.
3. Ancient people in nearly every civilization have flood legends which bear witness to the actual flood.
4. Fossils of sea life can be found in the highest mountains on earth, including enormous whales.
5. Dinosaur fossils with soft tissues in them give evidence that the dinosaur cannot be millions of years old, but were buried rapidly and much more recently than previously thought.
6. The Bible itself predicts that in the last days people would deny the biblical account of the flood being willfully ignorant in the face of overwhelming evidence.

## Happy New Year

With "Happy New Year" you greet your friends,  
And they wish the same in reply;  
But will it be "happy", and will it be "new,"  
Or like the one that has just gone by?

For tearing a page from the calendar pad  
Doesn't change the kind of a year;  
They all have their share of the good and the bad –  
Of happiness, sorrow, and cheer.

Would you have a new year in your life, my friend?  
Full of blessings unnumbered for you?  
It may be had, beginning to end,  
For in Christ are all things made new.

Would you have real happiness day after day,  
With peace that the world cannot give?  
Let Jesus come into your heart to stay,  
And then you'll begin really to live.

For the things of this world will all pass away,  
Their luster will fade and grow dim;  
But the joy of Christ Jesus will last you – aye—  
You will find "Happy New Year" in Him.

**EXTRA COPIES.** A couple of weeks ago we had an insert in the bulletin titled **Should A Man Desire To Be An Elder?** There are a few extra copies available on the credenza.

**SEASONS GREETINGS!** 🌲 Tempus Fugit! Time flies. Or as one old-timer said, "Tempus shore do fugit." There are several variations on this saying - Tempus fugit, amor manet, which means "time flees, love remains". Tempus fugit, aeternitas manet, which means "time flees, eternity remains". Tempus fugit (et numquam revertitur), which means "time flees (and never returns)". All of these are true, and we do well to give heed to them.

Another year has almost ended and we take this opportunity to wish each and everyone of you the joys of the season, great times with your loved ones, and many blessing throughout the coming year.
