"Fear Of Truth"

James W. Adams (1914-2013)

My daughter's friend expressed great interest in the doctrine of "Premillennialism." It so happened that I was at that time engaged in a series of studies involving the subject on a television program. My daughter suggested to her friend that she might tune in, watch, and listen. Her friend said, "Is he for it or against it?" When informed I was opposed to it, my daughter's friend said, "In that case, I don't want to hear it!" There are many who feel the same way. They refuse to hear or read anything contrary to their preconceived beliefs and practices lest they find their cherished idols to be mortal delusions. On the other hand, truth has nothing to fear from investigation. Like pure silver, the more you rub it, the more it shines. It is said that "a philosopher of Florence could not be persuaded to look through one of Galileo's telescopes lest he should see something in the heavens that would disturb him in his belief of Aristotle's philosophy" (Buck). So it is with many; they fear testing their beliefs by the word of God lest they find them to be untrue. (Words Fitly Spoken, p. 60)

If our children miss heaven...none of this other stuff matters.

Nothing.

'HE PREACHED RIGHT AT ME'

I have heard this statement made many times by individuals who have just heard a sermon presented which exposed some wrong in their lives. Did you ever wonder why anyone would feel that the preacher had "preached right at" him?

Suppose the preacher has just preached against lying. Who in the audience will feel that he has preached right at him? It could only be one who is guilty of lying. The same would hold true on any other subject.

What we need to do is examine the things taught in the light of God's word. If we find them to be true we should accept them. If they expose some wrong in our life we need to change and thank God that there is someone concerned enough about our soul to teach us what we need to hear. *'James Hahn*
